

When It Comes to Safety, There's Only ONE Choice

ONESUIT® Trainer is a fully-encapsulating "Level A" suit for training purposes. Built with the same design as your certified ONESUIT® Level A suit, and constructed using flexible and durable CORETECH® materials, ONESUIT® Trainer allows you to train and simulate operating in a ONESUIT® without the risk of damaging a high-value certified suit.

ONESUIT® Trainer features Saint-Gobain's single-layer anti-fog visor, providing superior visual clarity and permanent anti-fog resistance. The suit may be used repeatedly for as long as it remains functional, and its simple design does not require extensive maintenance beyond simple hygienic cleaning.

ONESUIT® Trainer's high visibility color makes it easily identifiable, and is clearly marked "For Training Use Only" to prevent inadvertent use in an actual incident. Train like a pro with ONESUIT® Trainer!

FEATURES AND BENEFITS

- Same design as your certified ONESUIT® protective suit.
- Clearly marked "For Training Use Only"
- Incorporates the CORETECH® Clearguard visor with permanent anti-fog resistance
- Designed to be used and cleaned multiple times
- No risk of damaging a high-value certified ONESUIT® while training
